

Say No To Mud

With the snow finally gone, everyone is itching to get on some singletrack. All the Omaha/Council Bluffs trails are still wet in many areas. If the tread is too muddy or slimy to ride on, don't ride on the side of the trail, that turns our singletrack into 1.5 track. Rather just hold off till you can ride the tread without mudding up your bike or leaving half pipe tracks. Alternatives include cement trails and gravel roads to feed your fat tire addiction!
